n° 1 - *Pereskia*

- 2 - *Gossypium*

- 3 - *Nephrolepis exaltata*

> Cola de Zuezal.

- 4 - *Acalypha alopecurioides* Jacq.

> n.v.: Hierba del cancer

- 5 - *Evolvulus villosus* R. & P.

- 6 - *Senecio salignus* DC.

> n.v. Flor de dolores

- 7 - *Eupatorium leucocephalum* Benth.

> n.v. Chilca or chilco

- 8 - *Peperomia galioides* Kunth

- 9 - *Gimmiella subanomala* (Berch.) Brth.

- 10 - *Stemodia arachnoidea* Robinson

- 11 - *Gynerium Galeottii* Cogn.

- 12 - *Cacareaothus azureus* Desf.

*Ceanothus*

Cactac. Panama City, in hedges. March. 1905 - Live fruits sent to  
r. Rose. A small tree,  $\pm 2.5^m$  high. Collected again Nov. 29, 1905

Malv. Near Panama City. March 1<sup>st</sup> 1905 - A tree-cotton,  $\pm 2.5$  high  
with flat crown, loaded with fruits.

Polypod. Guatemala City, 1400<sup>m</sup> April 13<sup>th</sup> 05. Frequently cultivated  
as ornamental, on account of its very long fronds.

Euphorb. Guatemala City, 1400<sup>m</sup> April 13<sup>th</sup> 05. A little bit of sample,  
sufficient for identif. - Named after supposed properties.

Convolv. Savannas around Guatemala, March 26, 1905. Flowers small,  
sky-blue. Little bit for identification.

Composit. Common in hedges around Guatemala, <sup>1400<sup>m</sup></sup> fl. March. 1905. Named on acc<sup>t</sup>  
of its flowering during "La semana de Dolores". Used for wreaths, etc.

Composit. Around Guatemala City, 1400<sup>m</sup> March 17<sup>th</sup> 1905. Characteristic for  
cool places. Bushy, 1-2<sup>m</sup> high. Used for wreaths.

Piperac. Forest zone, Volcan de Agua, Guatemala, March 22<sup>d</sup> 1905.  
Epiphytic.

Musci Forest zone, V. de Agua, Quatem., March 22<sup>d</sup>, 1905.

Composit. Medium & superior zones, V. de Agua, Quatem.  
March 22<sup>d</sup>, 1905. Small tree, bushy, 1-1.5 high.

Cucurbit. Forest zone - Vol. de Agua, Quat. March. 22<sup>d</sup> 1905.

~~Composit~~ Pine zone, V. de Agua, Quat. March. 22<sup>d</sup> 1905.  
~~Rhamnaceae~~ Seen at "La Cuesta de la Cara", above "La Antigua", at about 1200  
~~Moraceae~~ Large altitudinal range. Small, bushy tree, up to 2<sup>m</sup> high.

13. *Litsea glaucescens* H.B.K. Lauraceae? <sup>9<sup>th</sup> Maria</sup> at the foot of Volcan de Agua, 1, March 22<sup>d</sup> 1905.  
 > n.v. Laurel  
 all tree, 6-8<sup>m</sup> high. Leaves used as condiment.  
 ne zone, V. de Agua, , Quat. March. 22<sup>d</sup> 1905.
14. *Berberis* Berberidac.  
 ash  $\pm$  1.50 high. - Fl. yellow.
15. *Adiantum glaucophyllum* Filices. Forest zone, V. de Agua, , Quatem., March. 22<sup>d</sup>, 1905.
16. *Monnina costaricensis* Chodat. Polygalaceae Forest zone, V. de Agua, , Quatem. March 22<sup>d</sup>, 1905.  
 slender tree, more or less bushy, 1.5-2m. high. Fl. blue.
17. *Salvia cinnabarina* Moq. & Pl. Labiatae Forest zone, V. de Agua, , Quatem. March 22<sup>d</sup>, 1905.  
 trees whole thickets, over 2<sup>m</sup> high, in clearings. Fl. red.
18. *Fuchsia baccularis* Onagrariaceae Forest zone, V. de Agua, , Quatem. March. 22<sup>d</sup>, 1905.  
 small tree, 1-3<sup>m</sup> high.
19. *Salvia involucrata* Cav. Labiatae Forest zone, V. de Agua, , Quatem. March 22<sup>d</sup>, 1905.
20. *Lopezia ramosa* Cav. ? Onagrariaceae Forest zone, V. de Agua, , Quatem. March 22<sup>d</sup>, 1905.  
 fields, among cultivated places.

21. *Asplenium monanthos* L.

Filices. Forest zone, Volcan de Agua, Guatemala, March 22, 1905.

22. *Blaphoglossum*

Filices. Altered rocks near the top of Volcan de Agua, Quatem.  
March 22, 1905

23. *Blaphoglossum*

Filices Altered rocks, upper region of Volcan de Agua, Quatem.  
March 22, 1905.

24. *Polypodium heteromorphum* Hook. & Gray.

Filices Altered rocks, upper region of Volcan de Agua, Quat.  
March 22, 1905. Scarce and delicate.

25.

Filices Altered rocks, upper region of Volcan de Agua, Quatem.  
March 22, 1905.

26.

Polypodiaceae zone, Volcan de Agua, Quatem. March 22, 1905.  
epiphytic.

27. *Blaphoglossum*

Filices. Up rocks, upper zone of V. de Agua, Quatem. March 22, 05.

28. *Goniophlebium*

Polypodiaceae forest, middle region of V. de Agua, Quatem. March 22, 05.  
epiphytic.

29. *Bauhinia*

Gramineae

Superior belt of pine region, Volcan de Agua, Guatemala  
March 22<sup>d</sup>, 1905.

30. *Weldenia candicans*

Commelinaceae

Dried bottom of crater lake, and slopes around same, Volcan de Agua,  
Guatemala, March 22, 1905. Tuberos. Remains of leaves numerous on bottom  
of lake.

31. *Peperomia leptostachya* Hook. & Arn. Piperaceae

Forest zone, V. de Agua, Guatemala, March 22.05. Epiphytic.

32. *Rubus trilobus* M. & S. v. *guatemalensis* P. K. Rosaceae

Forest zone, V. de Agua, Guatemala, March 22.05. Forms  
erect bushes and is neither climbing nor creeping; no thorns.

33. *Begonia serrulata* ~~alata~~ C. D. C. sp. n. Begoniaceae  
in Bull. Herb. Aris. Ser. 2, 8, 321. 1908.

Forest zone, V. de Agua, Guatemala, March 22.05.

34.

Umbelliferae

Superior belt of forest zone, V. de Agua, Guatemala, March 22<sup>d</sup>, 05.

35.

Umbelliferae

Superior region of V. de Agua, Guatemala - March 22<sup>d</sup>, 05.

36

Umbelliferae

Forest zone, V. de Agua, Guatemala - March 22<sup>d</sup>, 05.

37. *Castilleja* Scrophulariaceae Upper zone of Volcan de Agua, , Guatemala, March 22<sup>d</sup> 05.

38. *Castilleja pectinata* M. & Gal. Scrophulariaceae. Upper zone, V. de Agua, , Quatem. - March 22<sup>d</sup> 05.

39. *Halenia gracilis* Griseb. Gentianaceae Upper zone, V. de Agua, , Quatem. March. 22<sup>d</sup> 05.

40. *Leptostaphylos pungens* H. B. K. Ericaceae Upper zone, V. de Agua, , Quatem. March. 22<sup>d</sup> 05.  
var. *cratericola* Donn-sm.

41. *Gaultheria hirtiflora* Benth. Ericaceae Upper zone, V. de Agua, , Quatem. March. 22<sup>d</sup> 05.

42. *Leptodontium perannulatum* Williams *Musci* Sheltered rocks, upper zone, V. de Agua, , Quatem. March 22<sup>d</sup> 05.  
n. sp.

43. *Lamproloma pectinata* Ch. & Ch. Scrophulariaceae Forest zone, V. de Agua, , Quatem. March 22<sup>d</sup> 05.  
Long, trailing stems, Fl. red.

44. *Fuchsia splendens* Zucc. ~~Compositae~~ Forest zone, V. de Agua, , Quatem. March 22<sup>d</sup> 05.

45- *Hypericum epigeum* Rob. Keller

Guttiferaceae

Upper zone, of Volcan de Agua,

, Guatemala, March 22, 05.

46- *Gnaphalium rhodanthum* L. & B. Compositae

Upper zone, Volcan de Agua,

, Guatemala, March 22, 05.

47- *Oseria stolonifera* (L. C.). Compositae

On rocks, upper zone, V. de Agua,

, Guatem., March 22, 05.

48- *Oenothera acaulis*?

Oenotheraceae

Upper zone, V. de Agua,

, Guatem. March 22, 1905.

49- *Arctostaphylos oxacana* L. - Ericaceae

Near Sta Maria de la Antigua,

, at the foot of V. de Agua, Guat.

> n.v.: Palo jiote (?)

March 22, 05. - Tree with flat crown, 4-5 m. high.

50- *Chiranthodendron platanioides* Bombacaceae

> n.v.: Palo de taguyo

Characteristic for the lower zone of V. de Agua, up to the pine region, above the oaks. Larger leaves used to wrap "tamales". - March 22, 1905.

51- *Chenopodium ambrosioides*

Chenopodiaceae

> n.v.: Hediondilla - Paletilla

La Antigua, 1100 m., Guatemala, March 23, 1905. Used in plaster form to cool down inflamed sores.

52- *Solanum nigrum* L. Solanaceae.

> Maj Rui - Ma Rui - Ma Ruxi (Cakchikel).

La Antigua, 1100 m., Guatemala, March 23, 1905. Used as green, in the same way we do spinach.

53. *Crotalaria longirostrata* H. & A. Leguminosae  
> n.v.: Chipilín

Bought in the Market, at La Antigua, Guatemala.  
March 23<sup>d</sup>, 1905. Same use as n° 52.

54. Rubiaceae?

Cuesta de La Caña, 1600<sup>m</sup>, between La Antigua & Sta Lucia,  
Guatemala, March 23<sup>d</sup>, 1905. Shrub, 1.5<sup>m</sup> - 2<sup>m</sup> high.

55. *Alnus acuminata* H. B. K.  
> n.v.: Palo de lama; Sapuyul (ca Rechi Kel?).

Mixco, 1700<sup>m</sup>, Guatem., March 23.05.

56. ~~Urtica~~ *chamaedryoides* Benth. Urticaceae  
> n.v.: Chichicaste

San Rafael, on the road from Mixco to La Antigua, 1500<sup>m</sup>,  
Guatemala, March 23<sup>d</sup>, 05. Garden weed.

57. *Melampodium oblongifolium* DC. Compositae

Along roads and in cultivated fields, Miramar, 1000<sup>m</sup>, Costa  
Cucca, Guatemala, April 1905.

58. *Eupatorium populifolium* H. B. K. Compositae  
> Rechi = h'atse';

Miramar, 1000<sup>m</sup>, Costa Cucca, Guatemala, April 3<sup>d</sup>, 1905. A small  
tree, 2-3<sup>m</sup> high, used to build up hedges.

59. *Melampodium divaricatum* DC. Compositae  
> n.v.: Flores amarilla

A weed in coffee plantations; called a good, refreshing plant by  
planters.  
Miramar, 1000<sup>m</sup>, Costa Cucca, Guatemala. April 1905.

60. *Galinsoga parviflora* Cav. Compositae

Miramar, 1000<sup>m</sup>, Costa Cucca, Guatemala, April 1905. A  
weed, in cultivated places, considered as good by planters.

61. *Senecio candellariae* Benth. Compositae

In the bushes, at Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 1905.

62. *Tectaria trifoliata*<sup>a</sup> (L.). Filices

Bushy and cool places around Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 1905.

63. *Dennstaedtia* Filices

Gorge of Rio *Sto Domingo*, near Miramar, 1200<sup>m</sup>, Costa Rica, Guatemala, April 1905.

64. } *Ellsophila*  
} *Cyatheaceae*

Around Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 05.  
Tree-fern.

65. *Diplazium plantaginifolium*<sup>folium</sup> (L.) Filices

Rocky, shady and deep gorge of Rio *Sto Domingo*, above Miramar, Costa Rica, Guatemala, April 1905.

66. *Guarea trompillo* C. D. sp. n. Meliaceae  
    > n. v.: *trompillo*

Around Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 05.  
A small tree, 8-10<sup>m</sup> high. Used for building purposes.

67. *Colubrina altidifolia* Schlecht. Boraginaceae  
    > n. v.: *Cox-tek, coste*

Around Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 1905. Extensively used as wind-breaker. A long, spindling tree, 15-20<sup>m</sup>. Timber for "horcones".

68. *Inga leptopoda* Lahl. Leguminosae  
    > n. v.: *Ixcapirol*

In plantations and forests around Miramar & Las Mercedes, 1000-1500<sup>m</sup>, Costa Rica, Guatemala - Fr. April 1905. Used sometimes, although not extensively, as coffee-shade.

69. *Toluidera Pereira* (Klotzsch) Baill. Leguminosae.

> n.v.: Palo de Balsamo.

70. *Solanum mazatenangense* Benth. Solanaceae.

> Rix-tan (mam or cakchiquel).

71. *Juanilloa Sargii* Donn. Sm.

~~Manduca~~

72. *Solanum*

Solanaceae

73. *Tonidium occultum* Polak. Violaceae

74.

Ciliaceae

n.v.: capulin blanco; kekchi' = ts'ahib' (?)

75. *Xylosma*

Flacourtiaceae

n.v.: Punterzapát; punta de zapato?

76. *Allophylus occidentalis* Radlk. Sapindaceae?

Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, fr. April 05. A lofty tree, probably planted, although that species is said to have been common in the forests, previously to their destruction.

Miramar, 1000 m., Costa Rica, Guatemala, Apr. 2<sup>d</sup>, 05.

Fl. grandes, blancas; eaten as green vegetable.

Between Miramar & Coatepeque, 600<sup>m</sup>, Costa Rica, Guatemala, April 4<sup>th</sup> 1905. Epiphytic. Fl. orange-yellow.

Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 05.

A bush, 1.5-2<sup>m</sup> high. Fl. yellowish-white, very numerous.

Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 1905.

In plantations.

Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 1905. A middle sized tree, varying in form; fl. purple. The fiber of the bark is used by the natives for cords, etc.

Around Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 1905. Used for hedges.

Around Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 05.

Small tree, greenish flowers.

77. *Tabernaemontana arborea* D.S. Apocynaceae  
> Chicle or Palo copal

78. *Gonolobus* Asclepiadaceae

79 *Miconia* Melastomaceae

80 *Conostegia lanceolata* Cogn. Melastomaceae

81 n.v. : tepeaquacate Lauraceae

82 *Casearia* Flacourtiaceae

83. *Piper medium* Jacq. Piperaceae  
> n.v. : cordoneillo

84. *Hyptis capitata* Ch. & Khl. Labiatae  
(*Mesosphaerum*).

Caballo Blanco; 300<sup>m</sup>, Costa Rica, Guatemala; April 10, 05.  
Tree, with an almost flat, spreading crown; diam. of  
trunk  $\pm$  35 cm, with 2,50 up to the first limbs.

In bushes around Miramar, 1000<sup>m</sup>, Costa Rica, Guat., Apr. 05.

Bushes around Miramar, 1000<sup>m</sup>, Costa Rica, Guatem., April 05.  
Characteristic for the middle zone of Pacific slope.

Bushes around Miramar, 1000<sup>m</sup>, Costa Rica, Guatem. April 05.  
Same as foregoing.

Las Mercedes, 1200<sup>m</sup>, Costa Rica, Guatem., April 1905.  
Used as coffee shade.

In thickets around Miramar, Costa Rica, Guatem. April 05.

Around Miramar, 1000<sup>m</sup>, Costa Rica, Guatem. April 1905.

Around Miramar, 1000<sup>m</sup>, Costa Rica, Guatem. April 1905.  
In waste places, near buildings, etc.

77 85-

Acanthaceae

Near Miramar, 1000<sup>m</sup>, Costa Rica, Guatem. April 1905.

78 86 - *Aspidosperma megalocarpum* - Apocynaceae.  
n.v.: Chichica

In hedges and windbreakers around Miramar, 1000<sup>m</sup>, Costa Rica, Guatemala, April 1905 (fr.) - A tree, 12-15<sup>m</sup> high, 30-40 cm. diam.

- 8 114. *Boerhaavia viscosa* L. Rodr. Nyctagynaceae On the beach at La Laguna, Lake Amatitlan, 1250<sup>m</sup>, Guat. April 15, 1905. Fl. deep purple.
- 8 115. *Jatropha Curcas* L. ? Euphorbiaceae In hedges at La Laguna, Lake Amatitlan, 1250<sup>m</sup>, Guat. April 15, 1905. The interior of the nuts is eaten by the natives.  
> n.v.: piñón; Kekchi = sakilte'
- 8 116. *Jatropha urens* L. Euphorbiaceae Along the beach, between La Laguna & Amatitlan, 1250<sup>m</sup>, Guat. April 15, 1905. A small tree, 2-3<sup>m</sup> high, characteristic of the hedges, in middle region, 800-1600<sup>m</sup>, all over the country. Fl. white, large.  
> n.v.: chichicaste; kekchi = kuesan

71 117. *Cleocharis capitata* R. Br. Cyperaceae

Damp places at La Laguna, Lake Amatitlan, 1250', April 15<sup>th</sup> 1905.

71 118. *Scirpus californicus* (L. R. Meyer) Britton Cyperaceae

In the water at La Laguna, Lake Amatitlan, 1250', April 15<sup>th</sup> 1905.

71 119 *Jussiaea repens* L. Oenotheraceae

Damp places at La Laguna, Lake Amatitlan, 1250', Quat. April 15. 1905.

8 120 *Jussiaea pilosa* H. B. K. Oenotheraceae

Damp places at La Laguna, Lake Amatitlan, 1250', Quat. April 1905.

Bushy, ramulate, 1.50 high, with a somewhat trailing habit.

8 121 *Tribulus maximus* L. Zygophyllaceae.

La Laguna, Lake Amatitlan, 1250'. Guatemala, April 1905.

Fl. pale yellow.

8 122 *Ceciba grandiflora* Gaertn. Bombacaceae  
n.v.: ceibo

El Cerro, between La Laguna & Amatitlan, 1300', Guatemala.

April 15<sup>th</sup> 1905. - A large tree, with a round crown. Thorns on trunk and limbs.

8 123 *Bursera Palmeri* Watson Burseraceae Burser  
n.v.: copal

El Cerro, between La Laguna & Amatitlan, 1300', Quatem. April 15<sup>th</sup> 1905.

A tree, irregularly shaped, about 6' high. Contains in bark and folial glandulae an odoriferous resin.

8 124 Bignoniaceae.

El Cerro, between La Laguna & Amatitlan, Quatem. April 15 1905.

A vine; fl. yellow.

7 125. *Yethamerium serpyroides* Linden. Acanthaceae  
in bushes at El Benito, between La Laguna & Amatitlan, 1300<sup>m</sup>, Guatem.  
April 15, 1905. Fl. pale yellow.

7 126. ~~Hypoxis~~ *Crinum embescens*. Amaryllidaceae  
Dry rocks along shore near La Laguna, Lake Amatitlan, 1250<sup>m</sup>,  
Guatem. April 1905.

7 127  
Orchidaceae  
La Laguna, Lake Amatitlan, 1250<sup>m</sup>, Guatem. April 1905.

8 128  
Melastomaceae  
Alto de Chuacús, 1600<sup>m</sup>, near Salamá, Guat. April 19, 1905.

8 129 *Quercus*  
n.v.: Encino  
Fagaceae  
Forests between Chiquin & Trapiche Grande,  $\pm 1000^m$ , road  
from Guatemala to Salamá, Guatem. April 29<sup>th</sup> 1905. One of the  
dominating species in forests, 500-1500<sup>m</sup>.

8 130. *Quercus reticulata* H. B. & K.  
n.v.: Roble  
Fagaceae  
Forests between Chiquin & Trapiche Grande,  $\pm 1000^m$ , Guatem. A-  
pril 29<sup>th</sup> 1905. Same as anterior as to frequency.

8 131 *Quercus*  
Fagaceae  
Cuesta de Chuacús, 1300<sup>m</sup>, near Salamá, Guatemala, Apr. 19.05

8 132. *Manihot angustiloba* Muell. Euphorbiaceae  
Cuesta de Chuacús, 1500<sup>m</sup>, near Salamá, Guatem., April 19, 1905.  
Diminute species, growing in cleft rocks.

*Stemmadenia mollis* Benth.

- 7 133. (*Tabernaemontana*) Apocynaceae  
n.v.: cojón

Characteristic for the region, between Chiquín & Las Canoas, 500-1200<sup>m</sup>, Guatemala - Apr. 19, 1901. A small tree, 2-4<sup>m</sup> high, fl. yellowish white.

- 7 134. *Cordia mollifolia* Pittier Boraginaceae

Between Chiquín & Trapiche Grande, 900<sup>m</sup>, Guatemala, 19 Apr. 05.

- 7 135. *Ruellia geminiflora* H.B.K. Acanthaceae

Between Chiquín & Trapiche Grande, 900<sup>m</sup>, Guat., April 19, 1905

- 8 136. Hippocratiaceae  
Lamiaceae

Between Chiquín & Trapiche Grande 800<sup>m</sup>, Guat. April 19, 1905.  
A small, low tree, with broad, flattened crown and dense ramification.  
Fl. yellowish.

- 8 137. *Hechtia guatemalensis* Mez - Bromeliaceae  
n.v.: Piña de coche (Piña)

San Bernardo, 600<sup>m</sup>, between Trapiche Grande & Canoas, Guat.  
April 19, 1905. Forms extensive thicket.

- 8 138. *Abutilon Pittieri* Donn. Smith Malvaceae  
n.v.: cohóp, or cohope

El Puente, near Las Canoas, 500<sup>m</sup>, Guatemala, April 1905. A shrub, about 1.5-2<sup>m</sup> high, common in thickets of lower region.

- 8 139. *Cologania procumbens* Leguminosae

Cuesta de Chuacús, 1300<sup>m</sup>, between Las Canoas & Salamá, Guatem.  
April 1905 - Fl. purplish.

- 8 140. *Siphysa robinoides* Benth. Leguminosae

Cuesta de Quililhá, 1200-1500<sup>m</sup>, between Salamá & Purulhá, Guatem.  
April 21<sup>st</sup> 05. A low stunted shrub, on slopes exposed to sweeping winds.  
Fl. yellow.

- 71 141. *Lonchocarpus meiotophyllus* Dm. Sm. Leguminosae Cuesta de Quililha', 1200-1500', between Salama' & Puculha', Quatem.  
April 21<sup>st</sup> 1905. A dwarfed shrub, see no 140.
- 71 142. *Pithecolobium glomeratum* Benth. Leguminosae Cuesta de Quililha', 1200-1500', between Salama' & Puculha', Quat.  
April 21<sup>st</sup> 1905. A dwarfed shrub; see above.
- 71 143. *Annerlia Luehgal* J. Dm. Sm. Leguminosae Cuesta de Quililha', 1200-1500', between Salama' & Puculha', Quatem.  
April 21<sup>st</sup> 1905. Fl. snow white, calyces yellowish. A dwarfed shrub.
- 8 144. *Echites tubiflora*, Mart. & Gal. Apocynaceae Alto de la Cuesta de Cachil', 1600', near Salama', Quat. Apr. 21. 05.  
A vine, with yellow flowers; seems to be very scarce.
- 8 145. *Senecio Deppeanus* Hemsl. Compositae Cuesta de Cachil', 1200-1600', between Salama' & S<sup>to</sup> Tomas', Quatem.  
April 21<sup>st</sup> 1905. Characteristic of the bare, wind swept slopes.
- 8 146. *Porophyllum ellipticum* Cass. Compositae Cuesta de Quililha', 1200-1500', between S<sup>to</sup> Tomas' & Puculha', Quat.  
April 21<sup>st</sup>. Fl. pink.
- 8 147. *Hidalgoa ternata* (L.) Compositae Between Puculha' & Samuk, road to Tucuri', 1500', Quatem.  
April 21<sup>st</sup>. A typical <sup>trailing plant</sup> ~~spine~~ of the "Regenwald". Fl. fire-red.
- 8 148. Alto de la Cuesta de Cachil', 1600', near Salama', Quatem. - Apr. 21. 05.  
A low, scarce bush.

71 149. *Centropogon guatemalensis* Rob. Campanulaceae

Between Purulhá & Samuk, 1600<sup>m</sup>, road to Tucurú, Guat. Apr. 21<sup>st</sup> 1905. - Charact. of the "Regenwald", upper region.

71 150. *Centropogon cordifolius* Benth. Campanulaceae

Between Purulhá & Samuk, 1600<sup>m</sup>, road to Tucurú, Guat. April 21<sup>st</sup> 05. - Charact. of the "Regenwald", upper region.

71 151. *Cranthemum praecox* Benth. Acanthaceae

Alto de Quililhá, 1500<sup>m</sup>, on the northern, half wet slope, road from Salama' to Purulhá, Guat. April 21. 05.

8 152. *Platoneura callistachyum* O.K. Acanthaceae

Samuk, 40<sup>m</sup>, on the trail from Purulhá to Tucurú, Guatemala. April 21<sup>st</sup> 05. A sub-lignous shrub, about 1-1.5<sup>m</sup> high, forming thickets.

8 153. *Dianthera inaequalis* B. & Hook. Acanthaceae

Between Purulhá & Samuk, 1500<sup>m</sup>, trail to Tucurú, Guat. Apr. 21<sup>st</sup>

8 154. *Parsonia* (*Euphorbia*) *aequipetala* Cav. Lythraceae

Alto de Quililhá, 1500<sup>m</sup>, on the northern, half wet slope, road Salama'-Purulhá, Guatemala, Apr. 21<sup>st</sup> 1905.

8 155. *Hauya* *Cenotheraceae*

Cuesta de Quililhá, 1400<sup>m</sup>, between St<sup>o</sup> Tomás & Purulhá, Guat. Apr. 21<sup>st</sup> 1905. - A small tree, 5-8<sup>m</sup> high, spindling, with erect trunks.

8 156. *Columnnea glabra* Aest. Gesneraceae

Between Purulhá & Samuk, 1600<sup>m</sup>, trail to Tucurú, Guatem. April 21<sup>st</sup> 1905. Epiphytic.

- 71 157 *Ind. (Pokonchi?) Romáko* Lauraceae. Vega larga 1500', near Purulhá', Guatemala. April 21<sup>st</sup>, 1905. A common tree in the little valleys of Sta Rosa & Purulhá'.
- 71 158 Boraginaceae Cuesta de Cachil 1200-1600', near Salama', Quatem. April 21<sup>st</sup> 05. A trailing shrub, in sheltered places on the bare slope.
- 7 159 *Oxalis* Oxalidaceae Cuesta de Cachil, 1200-1600', near Salama', Quatem. Apr. 21<sup>st</sup> 05. In sheltered places along road.
- 8 160. *Pamflora trinifolia* Mart. Passifloraceae Cuesta de Cachil, near the top, 1600', Salama', Quatem. Apr. 21<sup>st</sup> 05.
- 8 161. *Byrsonyma crassifolia* Juss. Malpighiaceae Cuesta de Cachil, 1500', near Salama', Quatem. April 21<sup>st</sup> 05. A small tree, 4-6' high.
- 8 162. *Lobelia Ghiesbreghtii* A. Gray. Lobeliaceae Alto de Quililhá', 1500', on the northern side, road from Salama' to Purulhá', Quat. Apr. 21<sup>st</sup> 05.
- 8 163 *Quercus macrophylla* Ne Fagaceae Alto de Quililhá', 1500', between Sta Tomas & Purulhá', Quat. Apr. 21<sup>st</sup> 1905. A large, beautiful tree, with ample, notched crown.
- 8 164. *Tropaeolum pendulum* - Tropaeolaceae Between Purulhá' & Samuk, 1500', trail to Tucurú', Quatem. Apr. 21<sup>st</sup> 05. One of the "Regenwald" species.

- 71 165. *Cratogeomys paleolatus* J. Dmn. Sm. Melastomataceae Between Purulha' & Samuk, 1600-1400', trail to Tucurú, Guatemala. April 21<sup>st</sup> 1905. Fl. pinkish-white. "Regenerale",
- 71 166. *Negundo aceroides* v. *texanum* - ~~Lapindaceae~~ <sup>Aceraceae</sup> Purulha', 1500m., Guatemala, April 21<sup>st</sup> 1905. A common, small tree.
- 71 167. *Salvia* Labiatae Purulha', 1500m, Guatemala, April 21.05. A common weed in pasture. About 1 to 1.5' high.
- 8 168. Urticaceae Between Purulha & Samuk, 1500', trail to Tucurú, Guatemala. April 21<sup>st</sup> 1905.
- 8 169. *Ordisia* Myrsinaceae On the hills around Sekankim, 550', Guatemala. April 24<sup>th</sup> 1905. A small tree, 2-3' high.  
kekechi' = kuakitun
- 8 170. *Smilax* Smilacaceae In the bushes around Sekankim, 550', Guatemala. April 24, 1905.  
kekechi' = julb
- 8 171. *Guarea* Meliaceae On the hills around Sekankim, 550', Guatemala. April 24, 05.  
kekechi' = pompté  
A small tree
- 8 172. *Siparuna riparia* A. D. C. Monimiaceae On the pine hill, west of Sekankim, 600', Quat. - April 24. 05.  
A shrub.

71 173. *Giparuna riparia* A. D. C. Monimiaceae  
n.v.: serbatana; ReKchi & tau-tse'

On the hills around Sekankim, 550', Guatemala, Apr. 24, 1905.  
A small tree, 2-4 m., crutching over bushes.

71 174. *Passiflora ~~keratophylla~~ <sup>keratophylla</sup>* Passifloraceae  
ReKchi: karanilitao'; n.v. granadilla de monte

Below Sekankim, in bushes, 450', Guatemala, Apr. 25, 1905.

71 175. Compositae

In the bushes, around Sekankim, 500', Guatemala, Apr. 28<sup>th</sup> 1905.

8 176. *Vernonia Seppiana* Less. Compositae  
n.v.: suguina' (Cakchikel?); ReKch = semem

Bushes around Sekankim, 500', Quat., Apr. 28<sup>th</sup>, 1905.

8 177. *Solanum mammosum* Solanaceae  
n.v. chicha; Rechi = Ran-tu' (= yellow breast).

Around the house in waste places at Sekankim, 550', Quat. Apr. 28<sup>th</sup> 1905.

8 178. Lauraceae  
ReKchi - sak-si'

Below Sekankim, 450', Guatemala, April 28<sup>th</sup> 1905. A tree.  
8-10 m high.

8 179. *Cuphea hyssopifolia* Rth. Lythraceae

On rocks along the Chisante R., below Sekankim, 270', Quat.  
April 29<sup>th</sup> 1905. Fl. purplish white.

8 180. *Lindenia rivalis* Rubiaceae  
ReKchi: mes-si-ha' (= water broom); n.v.: flor  
de Maria (Yzabal);

On rocks along the Chisante R., below Sekankim, 270', Quat.  
April 29<sup>th</sup> 1905

7 181. *Crusea caloccephala* J.C. Rubiaceae

On the slopes around Sekankim, 550<sup>m</sup>, Guatem. Apr. 29<sup>th</sup> 1905.  
Fl. sky-blue.

7 182. *Helicteres guazumaefolia* H.B.K. Sterculiaceae  
> n.v.: monecillo; KeKehi' tsubil

Bushes around Sekankim, 550<sup>m</sup>, Guatem. Apr. 29<sup>th</sup> 1905.  
A shrub,  $\pm 2^m$  high; fl. purplish red.

7 183. *Pithecolobium sophorocarpum* Benth. Leguminosae  
> Toxali'-p (comp. Chali-ha') Rekehi.

Along the Chisarte R. below Sekankim, 270<sup>m</sup>, Guat. Apr. 29<sup>th</sup> 05.  
A shrub, 2-3<sup>m</sup> high.

8 184. *Poinciana pulcherrima* L. Leguminosae  
> n.v. gallito; keKehi' u-tsuj

Around the house at Sekankim, 550<sup>m</sup>, Guatem. April 29<sup>th</sup> 05.

8 185. *Odontonema callistachyum* O.K. Acanthaceae

In the little gorge north of Sekankim, 500<sup>m</sup>, Guatem. April 30<sup>th</sup> 05.  
About 1<sup>m</sup> high, fl. red.

8 186. *Spathiphyllum Wendlandi* Schott. Araceae

In the deep gorge, north of Sekankim, 400<sup>m</sup>, Guatemala, Apr. 30<sup>th</sup> 05.

8 187. *Scutellaria orichalcea* Donn. Sm.

Around Sekankim, 500<sup>m</sup>, Guat. Apr. 30, 1905. In shady places.

8 188. *Cissampelos Pareira* L. Menispermaceae  
> Cotan; K. = kux-sogui

In bushes below Sekankim, 400<sup>m</sup>, Guat. Apr. 30, 1905.

71 189. *Cordia trichostyla* Pittier Boraginaceae  
Rekchi' - bajlamax, sutxaj. change name

Near the house at Lekankim, 550', Guatemala, Apr. 30<sup>th</sup> 1905.

A small tree, 6-8' high; fr. red, bacciformae.

7 190. *Stemodia* Rubiaceae

Along the Chisante R., 270', below Lekankim, Quat., Apr. 30<sup>th</sup> 1905.

Fl. very small, white.

7 191. *Selaginella* Selaginellaceae

Shady rocks around Lekankim, 550', Quat. Apr. 30<sup>th</sup> 1905.

8 192. *Piscidia erythrina* Lenth. Leguminosae  
> Rekchi: tiaxâb.

Along the Chisante R., 270', below Lekankim, Quatem. - April 30<sup>th</sup> 1905.

A large tree, 12-15' high, without leaves when flowering.

8 193. *Mammillaria* lipi Pohl. Euphorbiaceae

Cultivated below Lekankim, 350', Quat. - May 1<sup>st</sup> 1905.

8 194. *Heliconia latispatha* Benth. Musaceae  
> n.v.: bijagua; Rekchi = suk.

Below Lekankim, 400', Quatem. May 2<sup>d</sup> 1905.

8 195. *Ruellia pilosa* Pav. Acanthaceae

Gorge north of Lekankim, 400', Guatemala, May 2, 1905. - Fl. purplish blue.

8 196. *Ruellia pilosa* Pav. Acanthaceae

Bushes around Lekankim, 550', Quatem. May 2, 1905. Fl. purplish.

7 197. *Amarantus leucospermus* Walm. *Amarantaceae* Waste places around houses, Lekankim, 550<sup>m</sup>, Guatemala. <sup>May</sup> ~~May~~ 2<sup>d</sup>, 1905.

7 198. (Desmodium) *Meibomia supina* (Sw.) Britton. *Leguminosae* Around Lekankim, 550<sup>m</sup>, Quatem. May 2<sup>d</sup>, 1905.

7 199. *Desmodium* } *supina* { (Sw.) *Leguminosae* Around Lekankim, 550<sup>m</sup>, Quatem., May 2<sup>d</sup>, 1905.  
*meibomia* } Britton

8 200. *Piper hispidum* Sw. v. *pallidum* f. *b. b.* *Piperaceae* Bushes around Lekankim, 550<sup>m</sup>, Quatem., May 2<sup>d</sup>, 1905. A shrub,  
→ n.v.: cordoncillo about 1,50 high.

8 201. *Compositae* Bushes around Lekankim, 550<sup>m</sup>, Quatem. May 2<sup>d</sup>, 1905. About  
2,50 high.

8 202. *Malvaceae* Bushes near Lekankim, 550<sup>m</sup>, Quatem. May 2<sup>d</sup>, 1905. A  
single specimen.

8 203. *Amblyanthera fluminensis* Müell. *Apocynaceae* Bushes around Lekankim, 550<sup>m</sup>, Quatem. May 2<sup>d</sup>, 1905. A win-  
ding vine; white latex; fl. pale yellow with purple gorge.

8 204. *Scleria bracteata* Cav. *Cyperaceae* Bushes around Lekankim, 550<sup>m</sup>, Quatem. May 2<sup>d</sup>, 1905.

- 71 205. *Scleria melaleuca* Cham. & Schl. Cyperaceae Bushes around Sekankim, 550<sup>m</sup>, May 2<sup>d</sup>, 1905.
- 7 206. *Paspalum conjugatum* Berg. Graminae Everywhere around Sekankim, 550<sup>m</sup>, May 2<sup>d</sup>, 1905. One of the principal grasses in natural pastures.
- 7 207. *Paspalum decumbens* Poir. Graminae Along the road below Sekankim 400<sup>m</sup>, Quat. May 2<sup>d</sup>, 1905. Appears to be rather scarce.
- 8 208 *Paspalum compressum* Nees. Graminae Common around Sekankim, 550<sup>m</sup>, Guatemala, May 2<sup>d</sup>, 1905.
- 8 209 *Andropogon condensatus* H.B.K. Gramineae Hills between Cajal and Cahabon, 400<sup>m</sup>, Guatemala, May 3<sup>d</sup>, 1905.
- 8 210. *Lycaste aromaticum* Lindl. ? Orchidaceae Cajal, on the Cahabon River, 200<sup>m</sup>, Guatemala, May 3<sup>d</sup>, 1905. Epiphytic. Fl. yellow.
- 8 211 Malvaceae Hills above Cahabon, 400<sup>m</sup>, Guatemala, May 3<sup>d</sup>, 1905. In bushes. A shrub, 2<sup>m</sup> high.
- 8 212. *Crescentia alata* H.B.K. Bignoniaceae Y<sup>ta</sup> Maria Cahabon, 250<sup>m</sup>, Guatemala, May 3<sup>d</sup>, 1905. A tree about 6<sup>m</sup> high. Crown more or less flattened according to individuals. Fruit round, small, 5-7 cm. diam.  
 ) n.v.: moro; sinia-jom, Rimal-joch (Kekchi);

- 7 213. *Evolvulus alsinoides* L. Convolvulaceae Hills between Cajal & Cahabon, 400', Quat. - May 4<sup>th</sup> 1905. Fl. blue.
- 7 214. *Paspalum* Graminae In savannas near Sekankim, 350', Quat., May 4<sup>th</sup> 1905.
- 7 215. *Anthraenantia lanata* Benth. Graminae In savannas near Sekankim, 350', Quat. May 4<sup>th</sup> 1905.
- 8 216. *Andropogon leucostachys* H. B. K. Gramineae In savannas near Sekankim, 350', Quat. - May 4<sup>th</sup> 1905.
- 8 217. *Pennisetum* Gramineae Hills between Cajal & Cahabon, 400', Quat., May 4<sup>th</sup> 1905.
- 8 218. *Andropogon condensatus* H. B. K. Graminae Hills between Cajal & Cahabon, 400', Quat. - May 4<sup>th</sup> 1905.
- 8 219. *Paspalum Humboldtianum* Pe. Gramineae Hills between Cajal & Cahabon, 400', Quat., May 4<sup>th</sup> 1905.
- 8 220. *Hierochloa brachystachya* (Tr.) Hack. Graminae Hills between Cajal & Cahabon, 400', Quat., May 4<sup>th</sup> 1905.

- 7 221. *Trachypogon polymorphus montufai* Graminae  
(Nees.) Hack. Savannas below Tekankim, 350', on trail to Cahabon, Quat. May 4<sup>th</sup> 1905.
- 7 222. *Pitcairnia macrochlamys* Mez. — Bromeliaceae  
Bron Rocky places in savannas, between Tekankim & Chinaste, 400', trail to Cahabon, Quat. May 4<sup>th</sup> 1905.
- 7 223. *Mirasolia diversifolia* Hemsl. Compositae  
Along Cahabon River, between Chinaste & Cajal, 200', trail to Cahabon, Quat., May 4<sup>th</sup> 1905. About 2' high, bushy, floriferous.
- 8 224. *Tridax procumbens* L. Compositae  
Hills between Cajal & Cahabon, 400', Quat. — May 4<sup>th</sup> 1905.
- 8 225. *Asclepias* Asclepiadaceae  
Savannas below Tekankim, 350', on trail to Cahabon, Quat. May 4<sup>th</sup> 1905.
- 8 226. Compositae  
Hills between Cajal & Cahabon, 400', Quat. — May 4<sup>th</sup>, a small tree, ± 2' high.
- 8 227. *Dupinia* (*Cernstroemia*) *tepezapote* ~~Guttiferaceae~~  
(Cham. & Schl.) Theaceae  
Along Cahabon R., between Chinaste & Cajal, 200', trail to Cahabon, Quat. May 4, 1905. A middle sized tree, about 10' high; fl. white.  
(Gecanquin, Cook & D. n. 64 — fl. Apr. 21, 1904 — Vide Herbar. Nat.).
- 8 228. *Phyllocactus* Cactaceae  
Bars of Cahabon River at Cajal, 200', Quat., May 4, 1905. Epiphytic.

- 7 229. *Biophytum dendroides* B. *Oxalidaceae* Along the Chisay R. near Chimaste, 210<sup>m</sup>, trail Senahui - Cahabon, Quat. May 4<sup>th</sup> 1905. A striking plant, with sensitive leaves. Fl. greenish white.
- 7 230. *Jacquemontia pentantha* G. Don. *Convolvulaceae* Near Cajal, 200<sup>m</sup>, on trail from Cahabon to Sekankim, Quatem. May 4<sup>th</sup> 1905.
- 7 231 *Leguminosae* Banks of Cahabon River, between Cajal and Chimaste, Quat. May 4<sup>th</sup> 1905. Low bush, about 1<sup>m</sup> high; fl. white.
- 8 232 *Conostegia xalapensis* D. Don. *Melastomataceae* Hills between Cajal & Cahabon, 400<sup>m</sup>, Quatem. - May 4<sup>th</sup> 1905. A small tree, growing in bushes, 2-3<sup>m</sup> high.
- 8 233 *Morinda Roioi* L. *Rubiaceae* Banks of Cahabon River, 200<sup>m</sup>, between Cajal & Chimaste, Quatem. May 4<sup>th</sup> 1905. A small tree,  $\pm$  2<sup>m</sup> high, forming bushes. Involucres purplish, fl. white.
- 8 234 *Passiflora foetida* Cav. *Passifloraceae* Hills between Cajal & Cahabon, 400m. Quat. May 4<sup>th</sup> 1905.
- 8 235. *Piper elongatum* Vahl. v. *cordulatum* 4<sup>a</sup> *Piperaceae* Hills between Cajal & Cahabon, 400m. Quat. May 4<sup>th</sup> 1905. A small tree, 2<sup>m</sup> high.  
6. D. B.
- 8 236. *Piper tuberculatum* Jacq. v. *stunifolium* 6. D. B. *Piperaceae* Near a house in Cahabon, 250<sup>m</sup>, May 4<sup>th</sup>. Small tree 4-6m high, <sup>nearly</sup> always in the vicinity of house, and with appearance of cultivation.  
n. v. cordocillo

7 237

(On Euphorbia sp.)

Fungi

On the trail from Senahu to Cahabon, between Chimaste & Cajal, 200',  
Guatem., May 4<sup>th</sup> 1905.

7

238. *Heteropteris floricunda* H. B. K.

Malpighiaceae

Along Cahabon R., between Chimaste & Cajal, 200', Guatem. May 4<sup>th</sup> 1905.  
Small tree, 2-3 m high.

7

239

Rubiaceae?

Along Cahabon R., between Chimaste & Cajal, 200', Guatem. May 4<sup>th</sup> 1905.

8

240. *Duguetia leiophylla* Donn. Sm.

Anonaceae

Cajal, 200', on banks of river, trail from Cahabon to Sekankim, Guat.  
May 4<sup>th</sup> 1905. Small tree, 2-3 m high; fl. greenish yellow.

8

241. *Glemodia*

Scrophulariaceae

Near Chimaste, 250', on the trail from Cahabon to Sekankim, Guat.  
May 4<sup>th</sup> 1905.

8

242. *Ruellia geminiflora* H. B. K.

Acanthaceae

~~Along~~ Between Chimaste and Cajal, trail from Cahabon to  
Sekankim, 200', Guatemala May 4<sup>th</sup> 1905. Fl. purplish blue.

8

243. *Maranta arundinacea* L.

Marantaceae

Between Chimaste & Cajal, on the trail from Cahabon to Sekankim,  
200', Guatem. May 4<sup>th</sup> 1905. Fl. white.

8

244. *Lutellaria orichalcea* Donn. Sm.

Labiatae

Around Sekankim, 550', Guatem., May 5<sup>th</sup> 1905.

n.v. naranjo de monte

Monimiaceae

Cuesta de Tocota', 1500', Dagua Valley, Cauca, Dec. 21, 1905. A small tree, 4-6 m. high, with many bent stems.

694. *Centropogon grandis* Presl.

Campanulaceae

Cuesta de Tocota', 1500', Dagua Valley, Cauca, Dec. 21, 1905. In rivers - Fl. bright red.

695

n.v. naranjillo

696

n.v. llanten macho

697- *Salvia petiolaris* H.B.K.

n.v. Prende amor

698- *Calceolaria glutinosa* Heer & Regel.

> n.v. carielito

699- *Oplismenus compositus* Beauv.

> n.v. ratonera. No good fodder

700

n.v. mora

701- *Glome anomala* H.B.K.?

n.v. Traileyon

702

n.v. berro macho

Monimiaceae Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21<sup>st</sup> 1905. A small tree, in forest.

Plantaginaceae Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21<sup>st</sup>, 1905. In pastures.

Labiatae Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21<sup>st</sup>, 1905. Fl. azure blue, much larger than in *S. costaricensis*.

Scrophulariaceae Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Fl. yellow.

Graminae Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905.

Rosaceae Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Forms large bushes in pastures. Fruits red when ripe.

Capparidaceae Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Fl. orange red. Fl. glutinous.

Cruciferae Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Weed.

703

n.v. berro hembra

Cruciferae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Weed.

704. *Stachys bogotensis* H.B.K.

Labiatae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Fl. pale pink.

705

Compositae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Half climbing bush.

706. *Liabum hastifolium* Poepp. & Endl.

Compositae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905.

707. *Liabum asclepiadeum* Sch. Bip

Compositae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Half trailing shrub.

708. *Asplenium occaniense* Karst.

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. In silvis.

709

n.v. papayillo

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Stems single, 2.50-4" high.; female flowers abortive, except one or two; pedicels 5 cm. Fruit spheric, 5 mm. axial diam., 6-7 equat. diam.; orange yellow. In silvis.

710. *Meriania speciosa* Naud.

Melastomataceae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. A small bushy, very showy tree, in old clearings.

n.v. flor de mayo (Cali, y Cauca); siete cueros (Antioquia).

711. *Piper exserens* C. DC. v. *Tocotanum* C. DC. Piperaceae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. A small tree, 2-3 m. high.

712. *Piper hispidum* Sw. v. *magistalinus* C. DC. Piperaceae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. A bush, 1-2' high.

712a. *Piper insignifolium* C. DC.

713. *Piper vazquezianum* C. DC.

Piperaceae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. A small tree, with slanting stems, and vertical shoots.

714. *Anacacia xanthorrhiza* Bancr.

Umbelliferae

n.v. anacacha; cultivated on large scale; raw the roots are fed to cattle; cooked they are one of the staple-foods of the Caucaños

715

Gemneraceae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. A large, leafy stem; fl. brick red. In shady forest.

716. *Lapium verum* Hemsl.

n.v. caucho blanco.

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. A large tree. V. notes and phot.

717. *Coccolophloeum*?

Sapotaceae?

chaguako, or mamey silvestre. Used as ties on roofs.

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. A small tree, in coffee-plantation.

718

Cactaceae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 21, 1905. Epiphytic on *Myrodia*.

719. *Quararibea Cacao* P. & T. n. v. berraco.

Sterculiaceae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 22, 1905. A small, pyramidal tree, 6-8 m. high, in coffee-plantation. Fl. white.

720. *Cassia* n. v. cañafistolito

Leguminosae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 22, 1905. A treelet, 2 m. high; fl. yellow.

721. *Castilleja communis* Benth. n. v. venadillo.

Scrophulariaceae

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 22, 1905.

722. *Klaprothia mentzeloides* H. B. & K.

Loraceae?

Cuesta de Tocota, 1500', Dagua Valley, Cauca, Dec. 22, 1905. 4 petals, free, white; low, trailing plant.

723. *Begonia foliosa* Kenth.

Begoniaceae

Cuesta de Tocota, 1600'-2000', Dagua Valley, Cauca, Dec. 22, 1905.

724. *Micromeria Braunei* Benth.

Labiatae

Cuesta de Tocota, 1700', Dagua Valley, Cauca, Dec. 22, 1905. Fl. small purple.

725. *Phyllanthus*

Euphorbiaceae

Cuesta de Tocota, 1600', Dagua Valley, Cauca, Dec. 22, 1905. Vine-like shrub.

726. *Claphoglossum Dombeyanum* (Fee)?

Polypodiaceae

Cuesta de Tocota, 1700', Dagua Valley, Cauca, Dec. 1905. Epiphytic.

727- *Epidendrum fimbriatum* H. B. K.

Orchidaceae Cuesta de Tocota, 1700<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. Fl. pink, with purple dots.

728. *Mimosa*

Polygalaceae Cuesta de Tocota, 1600<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. Fl. purple,

729- *Gaultheria cordifolia* H. B. K.?

Ericaceae Cuesta de Tocota, 1600<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905.

730- *Gaultheria cordifolia* H. B. K.

Ericaceae Cuesta de Tocota, 1600<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905.

731- *Gonzalagunia*

Rubiaceae Alto de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905.

732- *Trifolium*

Phaseolaceae Alto de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905.

733

Compositae Alto de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. Stems 2-2.50 high, herbaceous.

734- *Liabum hastifolium* Poepp. & Endl.

Compositae Alto de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. Stems long, half trailing

735. *Eupatorium leptcephalum* Bb.

Compositae

to de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22<sup>d</sup>, 1905. 1<sup>m</sup> high, in clearings.

736 *Lisianthus acutangulus* R. & P.

Gentianaceae

to de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22<sup>d</sup>, 1905. 2<sup>m</sup> high; fl. yellowish white.

737 *Brachistus*

Solanaceae

to de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22<sup>d</sup>, 1905. Erect, at 1.50 high. Fl. yellow with purple streaks.

738

Passifloraceae

to de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22<sup>d</sup>, 1905. Fl. small, white.

739

Campanulaceae

to de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. Herbaceous; fl. by red, with yellow tips

740. *Croton*

Euphorbiaceae

to de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. Small, shrubby, in clearing.

741

Plantaginaceae

to de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. In pastures.

742

Campanulaceae

to de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. Epiphytic, green. Shady forest.

7 743. *Anthurium pulchellum* Engl.

Oraceae Alto de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca. Dec. 22, 1905. Epiphytic.  
One single specimen, in shady forest.

7 744. *Pedilanthus tithymaloides* Brit.

Euphorb. Alto de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. A bush,  
1<sup>m</sup> 20 high. Fl. whitish.

7 745. *Goniophlebium*

Polypodiaceae Alto de las Cruces, 1900<sup>m</sup>, Dagua Valley, Cauca, Dec. 22, 1905. Epiphytic.

7 746. *Sporobolus purpurascens* (Sw.) Hamilt.

Graminea San Antonio, 1700<sup>m</sup>, road to Buenaventura, Cauca, Dec. 21, 1905.

7 747

Compositae San Antonio, 1700<sup>m</sup>, road to Buenaventura, Cauca, Dec. 21, 1905. A bushy  
shrub, in open places

7 748. *Befaria glauca* Humb. & Bonpl.  
n.v. Angucha -

Eriaceae San Antonio, 1700<sup>m</sup>, road to Buenaventura, Cauca, Dec. 21, 1905. A small  
shrubby tree, floriferous, 3-4 m. high, flowers more or less pink.

7 749. *Glibadium caracasense* D.C.

Compositae Entre S. Antonio & El Saladito, 1600<sup>m</sup>, road to Buenaventura, Dec. 21, 1905.

7 750. *Stevia verticillifolia* Thunb.

Compositae Between S. Antonio & El Saladito, 1600<sup>m</sup>, road to Buenaventura, Dec. 21, 1905.  
Fl. white, few in capitulae.

7. 751. *Lantana trifolia*

Verbenaceae Between S. Antonio & El Saladito, 1600', road to Buenaventura, Cauca, Dec. 21, 1905.  
Fl. pink/lilac).

7. 752. *Baccharis cassinaefolia* DC. ?

Compositae Betw. S. Antonio & El Saladito, 1600', road to Buenaventura, Cauca, Dec. 21, 1905.

7. 753. *Weinmannia pubescens* H.B.K.

Saxifrage Betw. S. Antonio & El Saladito, 1600', road to Buenaventura, Cauca, Dec. 21.  
Small tree, 4-6 m. high, bushy.

7. 754. *Sitassa caucana* Pittier sp. nov.

<sup>Asclepiad</sup>  
~~Opuntia~~ Betw. S. Antonio & El Saladito, 1600', road to Buenaventura, Cauca, Dec. 21.  
A vine; fl. white; pl. milky.

7. 755. *Couratella hirsutissima* L.

Borraginaceae Betw. S. Antonio & El Saladito, 1600', road to Buenaventura, Cauca, Dec. 21, 1905. A  
small, bushy tree; fl. greenish.

7. 756. *Baccharis cinnamomifolia* H.B.K.

Compositae Betw. S. Antonio & El Saladito, 1600', road to Buenaventura, Cauca, Dec. 21, 1905.

7. 757. *Eupatorium tacotanum trineurolepis* Robinson

Compositae Betw. S. Antonio & El Saladito, 1600', road to Buenaventura, Cauca, Dec. 21. 05

7. 758. *Calcea caracasana* (H.B.K.) Hieron.

Compositae Betw. S. Antonio & El Saladito, 1600', road to Buenaventura, Cauca - Dec. 21.

7 759. *Hyptis*

Labiatae.

El Saladito, 1500<sup>m</sup>, above Cali, Cauca, Dec. 21, 1905 - differs from ~~maximally~~ <sup>following</sup> in hairiness of leaf, soft tomentous, spikes more dense, coroll. light purple instead of bluish purple.

7 760. *Hyptis polystachya* H. B. K.

Labiatae.

El Saladito, 1500<sup>m</sup>, above Cali, Cauca, Dec. 21, 1905. In clearings, a weed.

7 761. *Castilleja*

Scrophulariaceae

El Saladito, 1500<sup>m</sup>, above Cali, Cauca, Dec. 21, 1905. Fl. orange-red.

La Esmeralda, 1200', near Jamundi, Cauca, Jan. 9, 1906 - Low grass in bushes.

La Esmeralda, 1200', near Jamundi, Cauca - Jan. 9, 1906 - A small, 6-8' tree; straight, with pyramidal crown. Fl. white.

La Esmeralda, 1200', near Jamundi, Cauca - Jan. 9, 1906 - On dry hills.

935. *Casparium minus* Fourn. it.  
n.v. trenza. Reputed as the best native pasture.

Graminae

La Esmeralda, 1200', near Jamundi, Cauca - Jan. 9, 1906 - Dry hills

936. *Homolepis aturensis* (H.B.K.) Chase

Graminae

La Esmeralda, 1200', near Jamundi, Cauca - Jan. 9, 1906 - Dry hills

937. *Andropogon condensatus elongatus* Hack.  
n.v. Espartillo de Loma - No grub.

Graminae

La Esmeralda, 1200', near Jamundi, Cauca - Jan. 9, 1906 - Dry hills.

938. *Fimbristylis diphylla* Vahl.

Cyperaceae

La Esmeralda, 1200', near Jamundi, Cauca, Jan. 9, 1906 - Dry hills.

939. *Calea*  
n.v. chicharrón

Compositae

La Esmeralda, 1200', near Jamundi, Cauca, Jan. 9, 1906. A climbing  
shrub; fl. pale yellow.

940. *Panicum viscidellum*

Graminae

La Esmeralda, 1200', near Jamundi, Cauca, Jan. 9, 1906 - Long, ascending,  
stems, along brook.

941. *Miconia rubiginosa* D.C.  
n.v. mortino negro

Melastomaceae

La Esmeralda, 1200', near Jamundi, Cauca, Jan. 9, 1906. A shrub, or  
rather a tree, started like tree, with dense spikes of white fl., and black berries.

942. *Homolepis aturensis* (H.B.K.) Chase

Graminae

La Esmeralda, 1200', near Jamundi, Cauca, Jan. 9, 1906 -

943- *Chaptalia nutans* (L.) Amsl.

Compositae

La Esmeralda, 1200', near Jamundi, Cauca - Jan. 9, 1906 - An isolated plant, in pastures. Fl. pink.

944- *Spermacoce podoccephala* Benth.?

Rubiaceae

La Esmeralda, 1200', near Jamundi, Cauca - Jan. 9, 1906. Fl. white.

n.v. sanalo-todo - The mucilage is used with sugar, as a depurative ("para refrescar la sangre.")

945- *Toninia fluviatilis* Aubl.

Eriocaulaceae

La Esmeralda, 1200' near Jamundi, Cauca - Jan. 9, 1906 - Wet places.

946- *Panicum olivaceum* Hitchc. & Chase

Graminae

La Esmeralda, 1200', near Jamundi, Cauca - Jan. 9, 1906.

947- *Eupatorium pauciflorum* A.D.R.

Compositae

La Esmeralda, 1200', near Jamundi, Cauca, Jan. 9, 1906 - Fl. lilac - A weed.

948- *Jussiaea niffruticosa* L.

Onagraceae

La Esmeralda, 1200', near Jamundi, Cauca, Jan. 10, 1906 - In swamps - Fl. yellow. Single stems, about 1-1.50 high.

949- *Quarea*

n.v. cedro macho

Meliaceae

La Esmeralda, 1100', along Rio Jamundi, Cauca - Jan. 10, 1906 - A small, 8-10' high, tree.

950- *Mimosa floribunda* Willd.

n.v. zarza

Mimosaceae

La Esmeralda, 1100', along Rio Jamundi, Cauca - Jan. 10, 1906 - A climbing shrub. Fl. lilac.

951. *Calliandra Pittieri* Standley.  
n.v. carbonero

Mimosaceae

La Esmeralda, along Rio Jamundi, 1100', Cauca - Jan. 10<sup>th</sup> 1906. A tree with flat  
unw, 10-15" high - Fl. pink.

952. (*Oxalis*) *Lotoxalis Bachelieri* (Jacq.)

Oxalidaceae

La Esmeralda, in cultivated fields, 1100', near Jamundi, Cauca, Jan. 10<sup>th</sup> 1906. A  
weed; fl. pink (lilas); leaves articulated, very delicate.

953. *Polyp. arwifolium* L.

Polypodiaceae

La Esmeralda, along Rio Jamundi, 1100' - Cauca - Jan. 10<sup>th</sup> 1906 - Epiphytic.  
Long hanging fronds.

954. *Ananthacorus angustifolius* (Sw.) And. & Men. Polypodiaceae

Polypodiaceae

La Esmeralda, along Rio Jamundi, 1100', Cauca - Jan. 10, 1906 - Epiphytic.

955. *Anthurium scolopendrinum* (Hamilt) Ell. Araceae

Araceae

La Esmeralda, along R. Jamundi, 1100', Cauca - Jan. 10, 1906 - Epiphytic.

956. *Erythroxylum*

Erythroxylum

La Esmeralda, along R. Jamundi, 1100', Cauca - Jan. 10, 1906 - A shrub; red berry.

957. *Peperomia rotundifolia* Kunth.

Piperaceae

La Esmeralda, along R. Jamundi, 1100', Cauca, Jan. 10, 1906 - Epiphytic.

958. *Vittaria lineata* (L.) J. E. Sm.

Polypodiaceae

La Esmeralda, along R. Jamundi, 1100', Cauca - Jan. 10, 1906 - Epiphytic.

959. *Amphilophium macrophyllum* Bignoniaceae  
H. B. K.  
n.v. quemador

960. Gesneraceae  
n.v. boca silvestre

961. *Wissadula spicata* Presl. Malvaceae

962. *Browallia demissa* L. ? Solanaceae  
n.v. Zulia blanco (B. demissa = Zulia morado)

963. *Sida paniculata* L. Malvaceae  
n.v. San Juanito

964. *Lophocarpus guianensis* Smith Oleaceae

965. *Limnanthemum Humboldtianum*  
n.v. orejuela (taken)

966. *Xylosma* Flacourtiaceae  
n.v. cuerno de venado. Used for small pieces of carpenter's work

La Esmeralda, 1100<sup>m</sup>, along R. Jamundi, Cauca - Jan. 10, 1906 - A vine; fl. pink; yellow before anthesis; glutinous.

Jamundi, 1000<sup>m</sup>, Cauca - Jan. 11, 1906 - A viny shrub, in hedges; fl. yellow.

Jamundi, 1000<sup>m</sup>, Cauca, Jan. 11, 1906 - In waste places. Fl. yellow.

Jamundi, 1000<sup>m</sup>, Cauca, Jan. 11, 1906 - In waste places - Fl. white.

Jamundi, 1000<sup>m</sup>, Cauca, Jan. 11, 1906 - Fl. small, purplish, like *Heliotropis*, but diminute. Stems 1.50 high.

Jamundi, 1000<sup>m</sup>, Cauca, Jan. 11, 1906 - In swampy ponds. Fl. white, in clusters.

Jamundi, 1000<sup>m</sup>, Cauca, Jan. 11, 1906 - In swampy ponds.

Cañas Gordas, near Cali, Jan. 11, 1906 - A small tree; yellow flowers.

967. *Scleria histella* Sw.

Cyperaceae

n.v. chondul - Bitterish and aromatic; used for "sachets"; eaten by cattle - Called curibano in Bogotá; Paez nonda tsakú

968. *Pectis*

Compositae

n.v. tomillo - Aromatic

1057. *Eryngium strackeatum* Lam.

Umbelliferae Tacueyo, 1800', R. Palo Valley - Jan. 22, 1906 - In swampy places.

1058. *Claphoglossum binchonae* Underw.

Tacueyo, 1800', R. Palo Valley. Cauca - Jan. 22, 1906 - In bushes, terrestrial.

1059. *Stelis*

Orchidaceae La Cruz del Rio Lopez, 2950', R. Palo basin - Cauca - Jan. 24. Epiphytic.  
Fl. greenish yellow.

1060 *Lepidendrum* (very near *gracillimum*.)

Orchidaceae La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24 - Epiphytic.  
Fl. greenish yellow.

1061

Orchidaceae La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24 - Epiphytic.  
Fl. greenish yellow.

1062

Orchidaceae La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24. Sub epiphytic.  
Fl. pink.

1063. *Pachyphyllum squarrosum* Lindl.

Orchidaceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo basin, Cauca. Jan. 24, 1906. Epiph.  
Fl. greenish.

1064. *Oncidium pentadactylon* Lindl.

Orchidaceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo basin, Cauca. Jan. 24, 1906. Epiphytic  
Fl. yellow, with brown stripes in outer circle.

1065. *Odentoglossum angustatum* Lindl.

Orchidaceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo basin, Cauca. Jan. 24, 1906. Sub-epiph.  
Large panicle of light yellow flowers; outer circle with purple spots, inner  
purple.

1066

Orchidaceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo basin, Cauca. Jan. 24, 1906. Sub-epiph.  
Fl. greenish white, very odorous.

1067. *Epidendrum scabrum* R. & Pav.

Orchidaceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo basin, Cauca. Jan. 24, 1906. Epiphytic.  
Fl. greenish white.

1068. *Fuchsia* new

Onagraceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo basin, Cauca. Jan. 24, 1906. Small  
tree, 2-3<sup>m</sup>. Fl. tile red, hanging bunches.

1069. *Brachyotum*

n.v.: ~~flor de mayo~~

Melastomataceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo basin, Cauca. Jan. 24, 1906. Bushy  
shrub; fl. purple.

1070. *Gaultheria cordifolia* H. B. K.

Ericaceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo basin. Jan. 24, 1906. Small tree,  
2-3<sup>m</sup> high; fl. pink.

1071.

Ericaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - A small tree, 2-3' high.

1072. Weinmannia hirtella H.B.K.  
n.v. encinillo

Gunoniaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - A small tree, 3-5' high;  
fl. white.

1073

Ericaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906.

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906.

1075. Blaphoglomum Funkii (Pée) Moore

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906.

1076. Epidendrum gramineum Lindl.

Orchidaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906 - Epiphytic;  
fl. green.

1077. Lomaria  
n.v. helecho de páramo

La Cruz del R. Lopez, 2950', R. Palo basin, Cauca - Jan. 24, 1906 - Arborescent;  
Characteristic from 2800 to 3500' - Phot.

1078. Lycopodium Jussieu Desv.

Lycopodiaceae

La Cruz del R. Lopez, 2950', R. Palo basin, Cauca - Jan. 24, 1906 - In dry sunny places

1079- *Stelis*

Orchidaceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo Lario, Cauca - Jan. 24, 1906 - Epiphytic

1080

Melastomataceae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo Lario, Cauca, Jan. 24, 1906 - A shrub, 2-3<sup>m</sup> high, fl. white.

1081- *Befaria phyllireaeifolia* Benth.

Eriaceae

n.v. angucha

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo Lario, Cauca, Jan. 24, 1906 - A small tree, 2-4<sup>m</sup> high; fl. pink - characteristic of the upper forest zone, above 2500<sup>m</sup>.

1082- *Desfontainia splendens* H. B. K.

n.v. limon - Med.: la infusión se usa contra la tos de los niños

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo Lario, Cauca - Jan. 24, 1906 - A shrub; fl. purplish, with yellow tips.

1083- *Senecio arboreus* (H. B. K.):

Compositae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo Lario, Cauca - Jan. 24, 1906 - A bushy shrub; fl. greenish white

1084

Compositae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo Lario, Cauca - Jan. 24, 1906 - A small tree, 2-4<sup>m</sup> high. Ligulae brown; anthers white.

1085- *Senecio pulchellus* (H. B. K.) DC.

Compositae

n.v. guasqui

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo Lario, Cauca - Jan. 24, 1906 - A small bush, 1.5-2<sup>m</sup> high; goes up into the páramo.

1086- *Senecio arboreus* (H. B. K.)

Compositae

La Cruz del R. Lopez, 2950<sup>m</sup>, R. Palo Lario, Cauca - Jan. 24, 1906 - A bush, 1-2<sup>m</sup> high

1087. *Rhynchosyrium conchophyllum* (Tayl.) Tag. Musci

La Cruz del R. Lopez, 2950', R. Palo basin - Jan. 24, 1906.

1088. *Campylopus Pittieri* R. S. Williams Musci

1089. *Bryum argenteum* L. Musci

1090.

Orchidaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906. Fl. pink.

1091.

Orchidaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906. Fl. pink.

1092.

Orchidaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906. Epiphytic; fl. pink.

1093.

Orchidaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906. Epiphytic; fl. purple.

1094.

Myricaceae

La Cruz del R. Lopez, 2950', R. Palo basin - Cauca - Jan. 24, 1906. A small tree, 2-6' high.

n.v. Laurel de cera

1095-

Gesneraceae

Above La Cruz del R. Lopez, 3000<sup>m</sup>, R. Palo barrin - Cauca - Jan. 25<sup>th</sup> 1906 - Fl. golden yellow, hanging. Epiphytic.

Along S. Vicente R., Huila, R. Paez Valley - Jan. 28, 1906. Rami: ped. culms, 3-4' long.

1239. *Rubus florihundus* H. B. & K. Rosaceae

Around Huila, 1800', R. Paez Valley. Jan. 28, 1906. Fl. lilas.

1240. *Oegopogon geminaeflorus* H. B. K. Graminae

Along S. Vicente R., 1800', Huila, R. Paez Valley, Jan. 28, 1906.

1241

Mimosae

n.v. guarango; paez tsuns.

guarango, Kitsua guarangu

1242. *Micromeria Brownei* Benth.

Labiatae

Along S. Vicente R. 1800', Huila, Rio Paez Valley. Jan. 28, 1906. A. small tree, with depressed crown, 3-4' high; fl. white

Along S. Vicente R. 1800', Huila, R. Paez Valley. Jan. 28, 1906. A. diminute herb, on wet sand and among moss; fl. purplish pink.

1243.

Phaseolaceae

Around Huila, 1800', R. Paez Valley, Jan. 28, 1906. Common. fl. white

1244. *Salvia*

Labiatae

Along S. Vicente R., 1800', Huila, R. Paez Valley. Jan. 28, 1906. Fl. red.

1245. *Eupatorium solidaginoides* H. B. K. Compositae

Along S. Vicente R., 1800', Huila, R. Paez Valley. Jan. 28, 1906. Vine-like; fl. yellow.

1246. *Pridium pumiferum* L.

Myrtaceae

n.v. guayava agria;

Around Huila, 1800', R. Paez Valley. Jan. 29, 1906. A small, distorted tree, 2-3' high. Fruits round, yellow and sweet when ripe, 2-3 cm. diam.

1247

## Bromeliaceae

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. Epiphytic, fl. pink. A common sp.

1248. *Erythrina* (~~*rubroinervis* H.B. & K.~~) *edulis* Triana.  
n.v. pisamo (Cauca?); chachaputo (Cotima); paez: usshál - bl  
frijol se come sancochado o' compuesto en dulce - chachapoto.

1249

## Euphorbiaceae

n.v. lechero; paez ibitsátó. Used for live fences; milk  
to destroy warts. (ibitsátó).

1250

Around Huila, 1800', R. Paez Valley - Jan. 29, 1906. A medium sized tree.  
Fl. yellow.

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. A tree 6-8' high.

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. A small, bushy  
tree, 2-4' high; fl. yellowish white.

1251. *Polypogon interruptus* H.B. & K.

## Graminae

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. ...

1252

## Ericaceae

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. Epiphytic. Fl.  
white; fr. jelly-like, white.

1253

## Melastomataceae

Around Huila, 1800', Rio Paez Valley, Jan. 29, 1906. In pastures; fl. light  
pink.

1254. *Eupatorium molle* H.B. & K.

## Compositae

n.v. altamisa blanca

Around Huila, 1800', R. Paez Valley - Jan. 29, 1906. Common in pastures;  
fl. white.

1255. *Tagetes* Compositae  
n.v. mata-pulgas - *Odoriferous*, bad smell - paez fins tia'; used by the  
Paez Indians to kill worms on cattle wounds.

1256. *Eupatorium leptcephalum* DC. Compositae

culantillo; n. paez: ul-me'-uk

1262. *Salvia* Labiatae

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. Waste places; fl.  
yellow.

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. In bushes; fl. violet

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906.

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. In bushes, a  
shrub, 2-3' high.

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. A small tree, 3-4'  
high.

Along R. S. Vicente, Huila, Rio Paez Valley - Jan. 29, 1906.

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906.

Around Huila, 1800', R. Paez Valley - Jan. 29, 1906. Fl. azure.

1263. *Oplismenus compositus* Beauv.

Graminae

Arround Huila, 1800<sup>m</sup>, Rio Paez Valley - Jan. 29, 1906 - Along the river, in  
fushes.

1264. *Sisirhynchium micranthum* Cav.

Tridaceae

Arround Huila, 1800<sup>m</sup>, Rio Paez Valley - Jan. 29, 1906 - Fl. yellowish white.

1265. *Chaetochloa imberbis geniculata* (Poir.) S. M. Graminae

Arround Huila, 1800<sup>m</sup>, Rio Paez Valley - Jan. 29, 1906 - ~~Fl.~~

1266. *Paspalum*

Graminae

Arround Huila, 1800<sup>m</sup>, Rio Paez Valley - Jan. 29, 1906.

1267. *Crisetum degenoides* H. B. K.

Graminae

Arround Huila, 1800<sup>m</sup>, Rio Paez Valley - Jan. 29, 1906

1268. *Loasa bipinnata* Donn. Sm.

Loasaceae

Arround Huila, 1800<sup>m</sup>, Rio Paez Valley - Jan. 29, 1906. In cool places.  
Fl. yellowish white

n. paez: kās

1269. *Salvia palaeifolia* H. B. & K.

Labiatae

Arround Huila, 1800<sup>m</sup>, Rio Paez Valley, Jan. 29, 1906. In pastures;  
fl. blue, corolla short.

n.v. parendera; paez buits - Said to cause abortion  
when eaten by cows. recorded.

1270. (*Euphea*) *Parsonia micrantha* (H. B. K.) Lythraceae

Arround Huila, 1800<sup>m</sup>, Rio Paez Valley - Jan. 29, 1906 - In pastures -  
Fl. pink.

1270. *Campylopus concolor* (Hook.) Mitt.

Musci

Around Huila, 1800', Rio Paez Valley - Jan. 29, 1906. On stones.

1272. *Oplismenus Humboldtianus parvipilus* Hoffm. Graminae

Around Huila, 1800', Rio Paez Valley - Jan. 30, 1906. In open pastures.

1273

Myricaceae

Around Huila, 1800', Rio Paez Valley - Jan. 30, 1906. A low bush; fl. purplish green; st. 5.

1274. *Galea caracasana* (H. B. K.) Hieron. Compositae  
paez: et'z (= hon).

Around Huila, 1800', R. Paez Valley - Jan. 30, 1906. In bushes. Long trailing herb.

1275. *Reltunium hypocarpium* (L.) Hemsl.

p. tuk-ue'-tse' <sup>root</sup>; used for dyeing wool in red. Rutaceae  
n.v. raicilla.

1276. *Saurauja*

paez: mdzik'; mosquito.

Around Huila, 1800' R. Paez Valley - Jan. 30, 1906.

1277

Equisetaceae

paez: uKle'; n.v. tembladera

Along S. Viente R. Huila, R. Paez Valley - Jan. 30, 1906

1278

Campanulaceae

n.v. : piojo

Around Huila, 1800', R. Paez Valley - Jan. 30, 1906.

1279. *Crotalaria anagyroides* H. B. & K. Leguminosae

Below Huila, 1700', R. Paez Valley. Jan. 31, 1906. Small bush; fl. yellow.

1280

Lauraceae

Around Huila, 1800', R. Paez Valley - Jan. 31, 1906. A small tree, 6-8' high. fl. yellow.

1281

Asclepiadaceae

Around Huila, 1800', R. Paez Valley - Jan. 31, 1906. A milky vine; fl. green with or purplish yellow.

1282. *Cissampelos Caxpeba* L.?

Menispermaceae

Around Huila, 1800', R. Paez Valley. Jan. 31, 1906.

1283. *Ischaemum latifolium* Kunth.

Graminae

Around Huila, 1800', R. Paez Valley. Jan. 31, 1906.

1284 *Oxalis*

Oxalidaceae

Around Huila, 1800', R. Paez Valley. Jan. 31, 1906.

1284a. *Ionoxalis articulata* (Sw.)

1285. *Epidendrum fimbriatum* H. B. K. Orchidaceae

Around Huila, 1800', R. Paez Valley. Jan. 31, 1906. Fl. white

1286

? Melastomaceae

n. v. aguacatillo?

Paez Bridge, below Huila, 1600', R. Paez Valley. Jan. 31, 1906. A tree, the size of the aguacate-tree, and very like it.

1287- *Phaseolus erythroloma* Mart.

Leguminosae

Below Huila, 1700', R. Paez Valley - Jan. 31, 1906 - Fl. brick red;

1288

Solanaceae

Below Huila, 1600', Rio Paez Valley - Jan. 31, 1906 - A middle sized tree; fl. blue.

paez: llima; n.v. ujaca

Verbenaceae

Below Huila, 1600', Rio Paez Valley, Jan. 31, 1906 - Fl. lilas.

1290

Leguminosae

Below Huila, 1600', Rio Paez Valley, Jan. 31, 1906 - Fl. pink.

1291- *Hieracium Ovifolae* H.B.K.

Compositae

Below Huila, 1600', Rio Paez Valley - Jan. 31, 1906 -

1292

Gesneraceae

Below Huila, 1600', Rio Paez Valley - Jan. 31, 1906 - Fl. red.

1293

Leguminosae

Below Huila, 1600', Rio Paez Valley - Jan. 31, 1906.

paez: sa' lufia;

1294- *Tillandsia usneoides* L.

Bromeliaceae

Below Huila, 1600', Rio Paez Valley, Jan. 31, 1906.

n.v. salvajina

1295.

Euphorbiaceae.

Below Huila, 1700', R. Paez Valley - Jan. 31, 1906 - Small tree, 2-3' high.

1296

Leguminosae

Below Huila, 1700', R. Paez Valley - Jan. 31, 1906 - Fl. purple.

1297 *Eupatorium tacotanum* Klatt.

Compositae

Below Huila, 1700', Rio Paez Valley - Jan. 31, 1906 - On dry hills; fl. purple.

1298. *Carex cladostachya* Vahl.

Cyperaceae

Below Huila, 1700', Rio Paez Valley, Jan. 31, 1906.

1299

Orchidaceae

Below Huila, 1700', Rio Paez Valley - Jan. 31, 1906.

1300. *Vismia*

*paez eét*;

Huila, 1900', Rio Paez Valley - Jan. 31, 1906. A small tree, 3-4' high.

1301. *Monochaetum Bonplandii* Naud.

Melastomataceae

Huila, 1800', Rio Paez Valley - Jan. 31, 1906.

1302. *Geranium diffusum* H. B. & K.

Geraniaceae

Huila, 2000', Rio Paez Valley - Jan. 31, 1906. In cultures - Fl. pink.

1304- *Valeriana pinnatifida* N.M.

Valerianaceae

around Huila, 2000', R. Paez Valley - Jan. 31, 1906. In cultures.

1305- *Datura arborea* L.

Solanaceae

around Huila, 2000', R. Paez Valley - Jan. 31, 1906. Fr. large, 13 cm. long, 5.5 in. (17 circ.).

n.v. borrachero; paez = id's (en Popayan guante)

1306- *Carica*

n.v. higuillo; tapaculo; paez: mém - fr. odorous, edible, slightly acid; yellow when ripe; when eaten the seeds stick together and obstruct the bowels; very u-  
-sious.

1307

Leguminosae

around Huila, 1900', R. Paez Valley - Febr. 2, 1906. Leaves dimorphic; ♂ fl. greenish, in axillary racemes; ♂ fl. greenish, in pedunculated, axillary racemes; leaves hirsute be-  
-sides of the same habit than C. Papaya, but generally ramified. Phot. R. 26.

between Huila and Bitanco, 2000', R. Paez Valley - Febr. 3, 1906. About 1' high. In sterile  
-sides.

1308- *Hieracium frigidum* Wedd.

Compositae

between Huila & Bitanco, 2000', R. Paez Valley - Febr. 3, 1906. On sterile slopes.

1309- *Gaultheria cordifolia* H.B.K.

Ericaceae

between Huila & Bitanco, 2000', R. Paez Valley - Febr. 3, 1906.

1310. *Trachypogon polymorphus* Hack.

Graminae

between Huila & Bitanco, 2000', R. Paez Valley - Febr. 3, 1906.

1311. *Trachypogon polymorphus* Hack.

Graminae

between Huila & Bitanco, 2000', R. Paez Valley - Febr. 3, 1906.

13.1312. *Agrostis perennans* (Walt.) Luch.

Graminae

Between Huila & Bitanco, 1900-2300<sup>m</sup>. Febr. 3<sup>d</sup>, 1906.

13.1313. *Calamagrostis monteridiensis* Nees.

Graminae

Graminae

Plantas, Paez Valley, Febr. 5, 1906.

1477

Leguminosae

*Hydrocotyle*

1478. *Sapum*

n.v. mantequillo. The latex contains rubber, but it does not coagulate, re-  
maining with the consistency of a grease.

Paez Valley, near Aguablanca.

1479

n.v. te

Paez Valley, near upper limit of forest. Febr. 5, 1906

1480. *Lypnocampylus*

Campanulaceae

n.v.: cacho bejico. Slight cuts on the stems give place to the flowing of  
a white, very elastic rubber, but this is not extracted to any extent

Paez Valley, near Plantas and Aguablanca, Febr. 5, 1906.

1481

## Campanulaceae

R. Paez Valley, near Plantas - Febr. 1906.

1482 - *Caesalpinia tinctoria* (Domb.) Benth.

ne used

n.v. : guarango : pods used for dyeing the wool in black. (Infusion)

1483

Guacayo, 1700', Rio Palo Valley, Febr. 7, 1906.

Guacayo, 1700', Rio Palo Valley, Febr. 7, 1906. A vine?

1484 - *Gleome anomala* H.B.K.?

## Capparidaceae

Guacayo, 1700', Rio Palo Valley - Febr. 7, 1906. Common in cool places. Fl. pale yellow.

1485

## Rubiaceae

n.v. requetzi - Used as a dye (para untir); formerly the bark was mixed with the bark of *bindema*.1486 - (*Planotia*) *nobilis* (Muens) Pilger.n.v. sobretana;

## Graminae

Guacayo, 1700', Rio Palo Valley. Febr. 7, 1906. A tree, with reddish foliage; white flowers, growing up to the end of the Huallilla &amp; S. Francisco valleys.

Rio Paez Valley, 1900-2400' - Febr. 5, 1906. Forming extensive thickets in forest.

Stem 5' 40, leaves 2' 60, breadth 18. Spike 1' 50. The stem was cut about 1' above the root, the lower part being also vertical.

1487 - *Pennisetum purpurascens* H. B. K.

## Graminae

Sabanas del Credo, 1400', R. Palo Valley, Febr. 8, 1906. In stony places

1488 - *Heteropogon contortus* (L.) R. & S.

## Graminae

Sabanas del Credo, 1200', R. Palo Valley - Febr. 8, 1906. On rocks.

1489. *Gordia eriostegma* Pittier n. sp.

Boraginaceae

Caso de la Bolsa, 1000', Cauca River. Febr. 7, 1906. A middle-sized tree, with round, depressed crown, covered with white, very odorous flowers, and thousands of bees, and other insects.

1490. *Christiella*

Cañas Gordas, 1100', near Cali. Febr. 10, 1906.

1491. *Oretea*

Lauraceae

Along Dagua R. near Venticias, Febr. 22, 1906. A medium-sized tree, with broad, flattened crown and hanging limbs.

n.v. *jigua amarillo*

1492

Along Dagua R., near Venticias, Febr. 22, 1906. A small tree; fl. purple, with long stamens.

1493. *Euphorbia*

Venticias del Dagua, Febr. 22, 1906. Red spot on bracts. Two forms or two species, one small, narrow-leaved in pastures, the other larger, broader-leaved in waste places.

1494. *Croton*

Venticias del Dagua, Febr. 22, 1906. Forms extensive bushes on arid slopes, etc.

1495. *Battneria* not in herb

~~Sterculiaceae~~

Venticias del Dagua, Febr. 22, 1906. Apparently a bush or a bushy vine. Fl. greenish yellow.

1496. *Leptopia canescens* H. B. & K. (not)  
*Gomocista* (not)

Verbenaceae

Venticias del Dagua, Febr. 22, 1906. A bush, 1-1.50 high; fl. white.

1497. *Chloris*

Graminae

1770. *Lippia nodiflora* (L.) Michx.

Verbenaceae

Around Zacapa, 200m. - 2.I. 07; on sandy beaches along river. Fl. pink.

1771. *Solanum torvum* Sw.

Solanaceae

Around Zacapa, 200m. - 2.I. 07, on river beaches. A bush, 1-2m. high. Fl. white.

1772. *Waltheria americana* L. ?

Sterculiaceae

Around Zacapa, 200m. - 2.I. 07, in dry places. Fl. yellow.

1773. *Hydrolea spinosa* L.

Borraginaceae

Around Zacapa, 200m. - 2.I. 07, on sandy river beaches - Fl. azure.

1774. *Jussiaea erecta* L.

Onagraceae

Around Zacapa, 200m. - 2.I. 07, in wet places - Fl. yellow. (petals carnes).

1775. *Eragrostis hypnoides* (Lam.) B. & P.

Gramineae

Around Zacapa, 200m. 2.I. 07, on sandy beaches.

1776. *Stemodia durantifolia* Sw.

~~Scrophulariaceae~~  
Scrophulariaceae

Around Zacapa, 200m. 2.I. 07, on river banks. Plant viscos; fl. white.

1777. *Phaseolus atropurpureus* Moq. & Sesse' Phaseolaceae

Around Zacapa, 200m., 2.I. 1907, on river banks. Trailing; fl. deep purple.

1778. *Rhynchosia minima* D.C.

Fabaceae

Around Zacapa, 200m., 2.I. 1907, on river banks. Trailing; fl. yellow.

1779. *Bouchea Ehrenbergi* Cham.

Verbenaceae

Around Zacapa, 200m., 2.I. 07, on river beaches. Fl. purple.

1780

Leguminosae

Around Zacapa, 200m., 2.I. 07, on river banks. Fl. purple.

1781. *Paullinia tomentosa* Jacq.

Sapindaceae

Around Zacapa, 200m., 2.I. 07; in hedges. A vine, fl. white.

1782. *Antigonon cinerascens* Mart. & Gal.

N.v.: bejeco de San Miguel (Zacapa)

Near Gualán, m. 5.I. 1906. A vine; fl. pink.

1783. *Lagascea maveolens* H. D. K.

Compositae

El Cedral de Gualán, m. 5.I. 1906. Stems erect, 1-1.5 m. high. Characteristic of the hilly dry region between Gualán & Copan.

1784. *Combretum Warszewiczianum* Eichl. Combretaceae

N.v.: bejeco de Chumpipiré

El Cedral de Gualán, m. 5.I. 1906. Viney treelet, 2-3 m. high; fl. yellow, in large bunches. Characteristic of the whole region.

Costa Rica

Characeae

Stagnant waters along R. Zent; coastal Atlantic plains of Costa Rica. Nov. 1904. Legit R. Brong.

2076. *Luffa acutangula* Rox.

Cucurbitaceae

In meadows around Rio Frio, western foot of Cordillera de Sta Marta - July 1906.

Panama

December 31, 1910 -

Dec. 31<sup>st</sup> 1910.

2077. *Meibomia triflora* (L.) Ktze

Papilionatae

Rio Grande near Culebra, along railroad. Low, creeping, stems very short. Flowers very small, blue. Stems and pods hairy.

2078. *Bradburya pubescens* (Benth.);

Papilionatae.

Rio Grande near Culebra, in grassy, exposed places along R.R. Trailing, stems 1-2 m. long. Fl. large, purple.

2079. *Paspalum virgatum* L.

Graminae

Rio Grande near Culebra. Isolated plants in grassy places.

2080. *Cenchrus viridis* Sprang.

Graminae

Rio Grande near Culebra. Along R.R. tracks in isolated plants.

2081. *Leptochloa virgata* Beauv.

Graminae

Rio Grande near Culebra. Isolated plants in grassy places.

2082. *Panicum pilosum* Sw.

Graminae

Rio Grande near Culebra. Stoloniferous but not caespitose. Shady places, not very abundant.

2083. *Panicum trichoides* Sw.

Graminae

Rio Grande near Culebra. Stoloniferous. In small colonies.

2084. *Paspalum conjugatum* Berg.

Graminae

Rio Grande near Culebra. Common everywhere.

Dec. 31<sup>st</sup> 1910.

2085. *Eragrostis ciliaris* Link.

Graminae

Rio Grande near Culebra. In isolated but thick tufts.

2086. *Oplismenus cristatus* Presl.

Graminae

Rio Grande near Culebra. Gregarious and covering <sup>steep</sup> sides of  
cuts along R.R.

2087. *Valota insularis* Chase

Graminae

Rio Grande near Culebra. In isolated tufts.

2088. *Panicum maximum* Sw.

Graminae

Rio Grande near Culebra. Large grass, with ample panicles,  
and growing in isolated plants.

2089. *Passiflora foetida* L.

Passifloraceae

Rio Grande near Culebra. Folia mollia, pubescentia. Flores  
albae, purpureo-striatae, mediocres. Collected also near Corrozal.  
Jan. 2, 1911. Alc. sp.

2090. *Schultheisia lisianthoides* (Griseb.) Ktze

Gentianaceae

Rio Grande near Culebra. Flowers closed about noon, greenish  
purple.

2091. *Passiflora lunata* Willd

Passifloraceae

Rio Grande near Culebra. 6-8 glands on leaves. Flowers geminate,  
white.

2092. *Cissampelos pareira* L.

Menispermaceae

Rio Grande near Culebra. Climbing in bushes. Leaves peltate,  
spiculate, flowers greenish-white.

2093. *Meibomia supina* (Sw.) Britton

Rapilionatae

Rio Grande near Culebra, everywhere in waste and grassy places. Flowers small, greenish purple.

2094. *Salvia occidentalis* Sw.

Labiatae

Rio Grande near Culebra, common in waste places. Flowers azure-blue.

2095. *Blechum Brownei* Juss.

Alcanthaceae

Rio Grande near Culebra, common in waste places. Flowers pale lilac.

2096. *Cassia undulata* Benth.

Leguminosae

Rio Grande near Culebra, on slopes. Scarce, prostrate; foliage dark green; stem lignose.

2097. *Elytranai squamosa* (Jacq.) Lindau

Alcanthaceae

Rio Grande near Culebra. Waste places, apparently scarce. Fl. small, deep purple.

2098. *Selaginella*

Selaginellaceae

Rio Grande near Culebra. On steep side of R.R. cut.

2099. *Mitreola*

Loganiaceae

Rio Grande near Culebra. Waste places, scarce. Fl. white

2100. *Nelsonia humelloides* (Lam.) T. & G.

Alcanthaceae

Rio Grande near Culebra. R.R. track, apparently scarce. Fl. deep purple

2101. *Melanthera deltoidea*

Compositae

Rio Grande near Culebra - Waste places, grassy talus.
